at Hearing Before Service

Hearing on the application of the New York Telephone Company for New York began to-day before the

Swayze, counsel for the compan. in outlining the company's pett-

"There are \$70,000 telephones in many thousands of men are out of lestimony to-day favorable to Stow. Greater New York. Applications are the country, and it seems certain by who is on trial for murder in the equipment to meet this. Extensions United States District Court, McMul- and additions have been planned to ployed, as numbers of factories will lin shot and killed Harry Carlton last meet this demand, and to do this be able to operate only a short time | March 11 at the home of Carlo Carlo | an expenditure in 1920 of about \$26,-000,000, in 1921 of a larger amount, and FORMER SOLDIERS OFFER AID Mangin testified that on March 28, a still larger amount in 1923 is necess-

> "While progress has been made in should be given. We are short 450 operators. A large number are inexperienced. The traffic load is abnormal and that, with the inexperisuce of many operators and shortage of force, impairs the service.

"In August, 1920, the operating revenuss per station were \$4.76 and the operating expenses were \$4.55. The gross operating revenues were \$4.140,-965, and the operating expenses were \$4.215,675. This left the company with a deficit of \$74,710.

"New plant and equipment costing millions of dollars must be bought and paid for and then installed. A large number of new employees must be hired, trained and paid. The 27,000 employees now on the payroll must be paid sufficient to retain them. The present revenue is insufficient to pay the operating expenses."

Edward B. Rogers, Chief of the Di-vision of Telephone and Telegraph of the up-State Commission, in outlining the present zone rates in New York, said that 75 per cent of the com-pany's revenue is derived from the

sale of messages while 25 per cent of the revenue comes from the rental of equipment, private lines, &c. Charles B. Hill. Chairman of the commission, who presided, ied Mr. Bogers slong on direct examination. "Hand back or I will shoot you."

This supports McMullin's testimony that he at first climbed up the fire escape and then down again.

Nathan Baynes, a real estate dealer.

Rogers along on direct examination, and other Eastern centres of critical coal shortage, experts in Washing-ton are exceedingly optimistic about the situation and see no justification for bankery conditions.

Regarding the fight against in-reased rates Mr. O'Brien said: "The New York Telephone Company has made application to put into effect a new and different schedule of telephone rates, the cost to the consumers will be, generally speaking, more than \$5 per cent., and according

48th Street protested against the pro-posed increase. She said the company

contracted for, therefore the company should not be given consideration until it first renders good service." Corporation Counsel Fertig objected to the tables saying the sompany would be manifesting better faith by submitting the books for examination. Chairman Hill said that to accede to

widmilting the books for examination. Chairman Hill said that to accede to such a request would require years in the taking of testimony.

Fertig insisted that the books be produced, declaring the gas corporations produced their books in rations produced their books in rations produced their books in rations of any financial statement would put the burden of proof on the people to cheak up instead of compelling the company to show its financial hands.

D. W. Steele jr., a lawyer of No. 250 Broadway stated that the sub-mission of such a financial statement was: "for no other reason than to hoodwink the Commission. was: "for no other reason than to hoodwink the Commission into be-lieving the figures are true and cor-
